## Checkpoint 6 Thijs - Portfolio Feedback 14-03-2025

**Naus, Thijs T.B.H.** (Teacher) a month ago

In the portfolio i missed the main reflection on the semester itself. Planning is very well worked out in LO1 but make sure you can stick to it. You determined in detail what to work on, very well done! But also show this to your teachers. At this point some of your stakeholders are in the dark, but your work is so nice, show it to them, you earned it!!! We discussed the paper prototype in class together with Stan. Well done for that, do that from now on with all teachers, take the lead in that! Also be visible to all teachers (stakeholders) that are involved with your work. This is important! Think about your Expectation Management. Overall your work is very nice, but please make it visible! ;-)
